Education

Bachelor of Technology — Invertis University	2023 – 2027 CGPA: 7.8
Class 12th (CBSE)	2023 70%
Class 10th (CBSE)	2021 85%

Skills & Languages

Programming:	Java, JavaScript, TypeScript, HTML, CSS
Frameworks:	ReactJS, NodeJS, ExpressJS, Next.js, Bootstrap, TailwindCSS, Mongoose, Socket.IO
Databases:	PostgreSQL, MongoDB
Tools & IDEs:	Git, GitHub, Visual Studio Code, Postman, Vercel, Render, Cursor
Visualization:	Power BI, Matplotlib
Languages:	English, Hindi

Experience / Internship

EduSkills Academy — MERN Full Stack Development Intern (Virtual)	Apr 2026 – Jun 2026
- Completed an 8-week intensive internship in MERN Full Stack Development culminating in two capstone projects. - Built proficiency in React.js (Hooks, Context API, Redux Toolkit, React Router), Node.js, Express.js, and MongoDB/Mongoose. - Developed RESTful APIs with JWT-based authentication; applied TailwindCSS for responsive UI and DevOps basics via Git workflows. - Capstone: E-commerce Platform with User Management & Product Catalog, and a Time Series Analytics Project.	
ACMEGRAD — Web Developer Intern (Virtual)	Jan 2025 – Mar 2025
- Designed and developed responsive web applications using modern front-end and back-end technologies. - Collaborated with cross-functional teams to deliver scalable, user-friendly web solutions. - Implemented RESTful APIs and optimized database queries to improve application performance.	

Projects

MockMate – AI Interview Platform (React, Express, MongoDB, Groq AI)	Individual Project
- Built a full-stack mock interview platform with AI-generated FAANG-level questions, adaptive difficulty, real-time scoring, and instant feedback using Groq AI. - Engineered RESTful backend with JWT auth, MongoDB data modeling, and a Groq-powered engine scoring responses 0–10 with strengths, weaknesses, and model answers. - Built analytics dashboard with performance tracking, weak topic detection, progress graphs, voice input (Web Speech API), and resume-based question generation.	
AI Resume Analyzer (Next.js, Express, Groq AI, TailwindCSS, MongoDB)	Individual Project
- Built full-stack AI-powered resume analyzer with SSR; users upload resumes and receive AI feedback on content, formatting, and ATS compatibility. - Integrated AI API to evaluate resume sections, provide keyword gap analysis, and generate match scores against job descriptions. - Deployed on Vercel with MongoDB Atlas; dashboard includes resume history, score tracking, and downloadable feedback reports.	
Tomato – Food Delivery App (React, Express, MongoDB, Multer, Cloudinary)	Individual Project
- Developed a responsive food delivery platform with secure JWT authentication, integrated order tracking, and order history. - Designed a clean, intuitive UI and implemented RESTful APIs for seamless frontend-backend communication. - Integrated Cloudinary for image uploads and Multer for file handling, enabling dynamic menu management with real-time product image rendering.	

Leadership & Awards

- Participated in a 30-hour National Hackathon held at Shivalik College of Engineering, Dehradun.
- Participated in Troubleshoot Ideathon by Microsoft.

Certifications

- MERN Full Stack Development with Project — EduSkills Academy (Jun 2026) | Certificate ID: 2026-5E9A233886
- AI for Beginners — HP Life
- Python 101 for Data Science — IBM Cognitive Classes
- SQL and Relational Databases 101 — IBM Cognitive Classes
